## PROFILE INFO

As a dedicated computer science professional with a B.Tech in Information Technology, I am eager to bring my expertise to an institution that prioritizes progress and creativity. I am enthusiastic about the opportunity to impart my knowledge and skills, confident that I can offer substantial contributions to the organization's objectives.

## PROJECTS

- **Caeli** - The weather App [🔗](#)
  - Gives data on current location weather
  - It takes the city as input and displays weather info such as current temp, and feels like temp. Used open weather API to call the weather data
  - There are also weather forecast details where we can see 24-hour and 7-day weather forecasts with sunrise and sunset timings, weather pollution index, and weather pollutant details.
- **Newzly** - The Advance news app [🔗](#)
  - A mobile application built with Flutter for cross-platform compatibility, ensuring a seamless experience on both iOS and Android devices.
  - Aimed at providing users with the latest news from various sources and categories in real time.
  - State management is handled through Provider or Riverpod for a clean and maintainable codebase.
  - Incorporates push notifications to alert users about breaking news or updates in their areas of interest.
- **Joy Share**- The File Sharing web App [Fontend] [🔗](#)
  - Developed a web app using HTML, CSS, and JavaScript that allows users to upload any file and share the link with the receiver via email.
  - Implemented a responsive and modern design that adapts to different devices and screen sizes.
  - Integrated a frontend email server with an API to send links to the receiver's email address.
  - Added uploading validation checks to limit the file size and number of files per upload.
  - Displayed success and failure messages to inform the user of the upload status.

## ACHIEVEMENT

- **GirlScript Winter of Code 2021** - Got selected in GsSoC'21 and contributed to open-source projects in the App Development domain.
- **30 Days of Google Cloud** - Successfully completed 30 days of the Google Cloud program.
- **Inter College Quiz** - Successfully participated and qualified for the final of Inter College Quiz competition.
- **GATE 2023** - Successfully secure all India rank 26313
